## PHI 410/411 MANUAL BENDING MACHINES

## Two bench-mounted machines for economical bends of tube up to $1 "$ OD and pipe $1 / 2$ " IPS

PHI's draw bending machines let you bend pipe and tube at extremely low cost. When you only need to make one or two bends per piece, you can save time and energy by using these efficient bench-mounted manual machines.

The compact design permits a great deal of mobility, as well as flexibility of location. They're light-weight and require less than four square feet of bench space - including the bend arm sweep.

The tube or pipe length capacity is unlimited, allowing you to use longer lengths with fewer joints.

That means another savings on labor and material costs required to join sections.

Both models give you precision bends with minimal wall thinning and ovality, particularly when optional mandrels are used.

It's the ideal bending machine for prototype departments, small machine shops, and operations where cost is a factor and when only a few bends are needed per piece.

## RELIABLE PERFORMANCE.

Few moving parts, all mechanical operation.

## HIGHLY MOBILE.

These light-weight machines can be set-up-anywhere. There is no electrical or hydraulic hook-up required.

## COMPACT SIZE.

Less than 4 sq . ft. ( $1.1 \mathrm{~m}^{2}$ ) of bench space required.

## PRECISE BENDS.

The DOB dial, in $1^{\circ}$ increments, permits accurate bends within $1^{\circ}$.

## REVERSIBLE DIRECTION.

You can bend clockwise and counterclockwise, permitting the production of complex parts (Model 410).

# 410/411 MANUAL <br> BENDING MACHINE SPECIFICATIONS

| Mandrel Rod Bracket Available | Machine or bench mounted | Bench mounted only |

All necessary wrenches and one appropriately sized tooling post are furnished with each machine. Other sizes are available.
A universal pressure die slide-plate is furnished with the Model 411. A wiper-die support bracket can be furnished with the Model 411.

Tooling. PHI is now a full-line supplier of bender tooling for not only PHI benders, but also for any other bender you might have. Let us give you a quotation.
